

蘇州恒祥進出口有限公司

SUZHOU HENGXIANG IMPORT & EXPORT CO., LTD.

ONE STOP MEDICAL PRODUCTS SUPPLY

- Aiming at supplying one-stop professional service to you for medical products, especially for medical disposables like:

Disposable Medical Device...
Disposable Medical Dressings...
Disposable Medical Non-woven Products...
Disposable Medical Gloves...

- Afford different payment terms, especially OA term (Open Account Term) for supporting your cash flow by maximum, as long as you have good credit. The longest time could be OA 90days
- Specially good at handling different medical products from different factories but ship in one container
- High quality but cheap price medical products with fast delivery time
All selected factories (our suppliers) are around our cities (in 1~3 hours by car, these factories are equipped with modern production machines under modern management. All these factories have secured CE, SO, China FDA, USA FDA etc.)
- All ordered medical products would be strictly supervised by us, whether in the course of "before production". "ongoing production or "finished products"
- Over 40 years import and export business in medical field (used to be a state-run company which specialized in import & export of medical product 40 years ago, ended till year 2001)
- A member of China Chamber of Commerce for Import & Export of Medicines & Health Products
- Turnover of year 2023 reaches 150 million USD
- Locates famous Suzhou city, only 80km far from Shanghai (30 minutes by High-speed train or 1 hour by car) Suzhou is an old but most beautiful city with 2500 years history, used to be ancient China's economy center, culture center and art center!
But now Suzhou city is the China No. 1 or 2 industrial city too.
- Registered medical brand "HEPPO" is already a famous in some countries and regions

1.20	18G	Pink						•
1.60	16G	White						•

- Packing: 1pc/soft blister bag, 100pcs/box, 5000pcs/ctn
- Sterile: EO Sterile
- Needle for animal use is also available

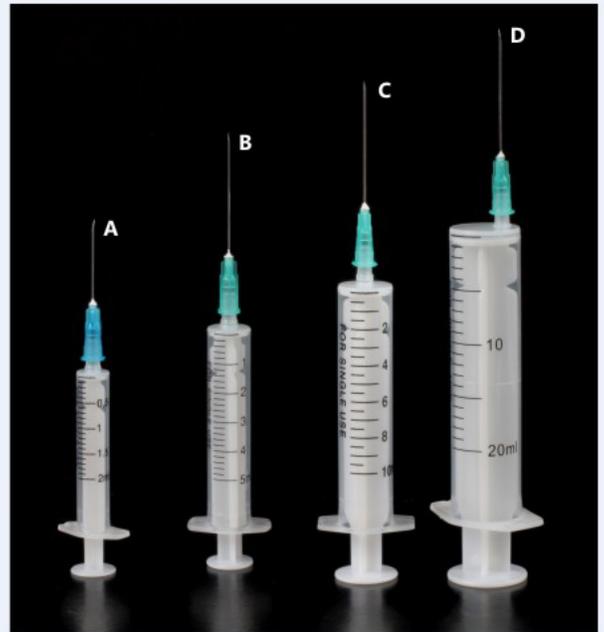

Disposable 3-Part Syringe

- Sizes: 1ml, 2ml, 2.5ml, 3ml, 5ml, 10ml, 20ml, 30ml, 50ml, 60ml
- Syringe Tip: Luer Tip / Luer Lock / Catheter Tip
- Needle: with / without Needle
- Piston: Latex / Latex-Free
- Plunger: White / Semi-transparent
- Individual Package: 1pc/PE bag or soft blister bag
- Mid-Packing: Papercard Box or Big PE Bag
- Sterile: EO Sterile
- Remarks:
 - a) For 5ml~60ml, eccentric tip is available
 - b) For 1ml Syringe, tuberculin syringe and BCG vaccine are also available

Disposable 2-Part Syringe

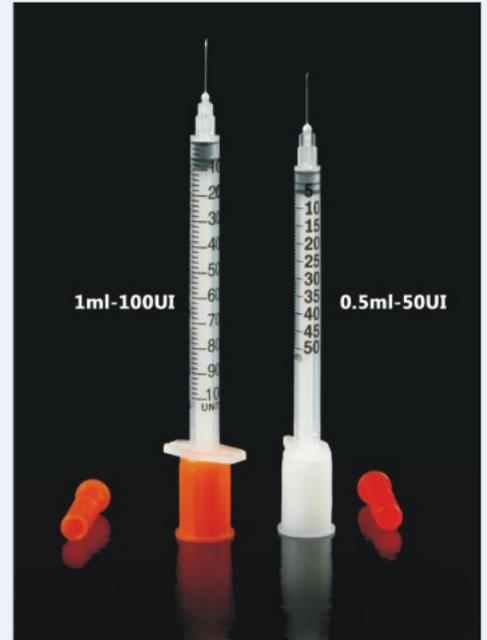

- Latex Free
- Sizes: 2ml, 2.5ml (Centric Tip) ; 5ml, 10ml, 20ml (Eccentric Tip)
- Syringe Tip: Luer Tip
- All others are same as Disposable 3-Part Syringes

A: 2ml/2.5ml (Centric Tip)
 B: 5ml (Eccentric Tip)
 C: 10ml (Eccentric Tip)
 D: 20ml (Eccentric Tip)

Disposable Insulin Syringe

- Ultra fine needle for minimizing patient's pain
- Accurate injection qty
- With normal detachable needle (**Model A**) or with fixed & jointed needle (**Model B**)
- Sizes: 0.5ml, 1ml with needle 29Gx1/2" or 30Gx1/2" (40unit, 80unit, 100unit)
- All others are same as Disposable 3-Part Syringe

Disposable Syringe & Needle for Medicine-Solving

- For Hand Use: 5ml, 10ml, 20ml, 30ml, 50ml, 100ml with Special Needle 16G or 18G
- For Machine Use: 20ml with Special Needle 16G or 18G

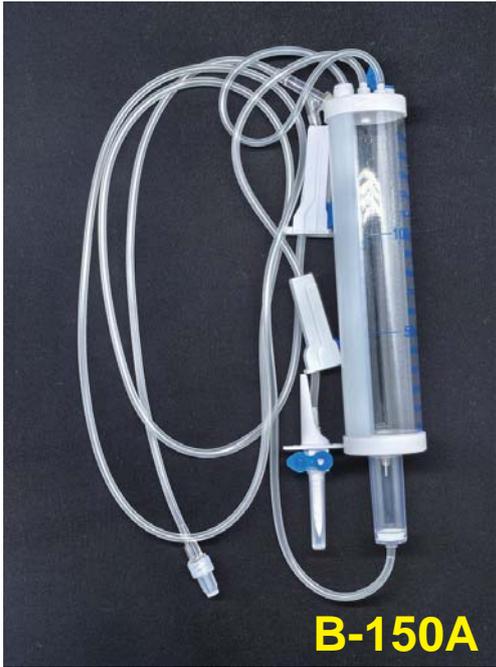

Needle for Medicine-Solving

Needle for Animal Use

Infusion Set with Burette

Configuration of Burette Infusion Set

Remarks:

1) Standard Configuration (Economic Configuration):

spike, hanging ropes, drip chamber (50ml /100ml/150ml, 60drops/ml), tubing (length: 25+150+30cm, O.D/I.D: 4mm/3mm), two regulators (50mm), male luer-lock, with DEHP ingredient

2) Optional Components to Add: T-shape spike, air inlet, regulator (50mm/55mm with tube clasp); floating disk valve (latexfree isoprene rubber /latexfree silicone rubber), solution filtration disk; Y-shape injection site(latexfree); needlefree injection site(latexfree); extension tubing (O.D/I.D: 4mm/3mm); frosted elastic tubing; with or without "hypodermic needle, scalp vein set, anti-reflux valve, blue vented cap, micro flow regulator, micro filter" etc; light shielding function etc.; DEHP-free

Components of Spike, Drip Chamber and Regulator

- A-drip chamber 50mm (with air inlet)
- B-drip chamber 50mm (w/o air inlet)
- C-drip chamber 50mm (with air inlet)
- D-drip chamber 54mm (with air inlet, with wings)
- E-drip chamber 54mm (w/o air inlet, with wings)
- F-drip chamber 72mm (with air inlet, with wings)
- G-drip chamber 62mm (with air inlet)
- H-drip chamber 72mm (with air inlet)
- J-drip chamber 72mm (w/o air inlet)
- K-drip chamber 72mm (with air inlet, light shielding)
- L-drip chamber 89mm (with air inlet, with ring)

- R1-50mm
- J1-55mm with tube clasp
- R2-55mm safety

Configuration of Infusion Set

Remarks:

1) **Standard Configuration (Economic Configuration):** spike, drip chamber (50mm, 20drops/ml), tubing (length: 150cm, O.D/I.D: 4mm/3mm), regulator (50mm), luer-tip adaptor, with DEHP ingredient

2) **Optional Components to Add:** T-shape spike, spike with wings; air inlet; drip chamber (54mm/62mm/72mm/89mm. 10drops/ml, 60drop/ml); regulator (50mm/55mm with tube clasp/ 55mm with safety hole); solution filtration disk;natural latex /isoprene rubber (latexfree) injection bulb (line-shape/pear-shape); Y-shape injection site(latexfree); needelfree injection site(latexfree); 3-way stopcock injection site(latexfree); extension tubing (O.D/I.D: 4mm/3mm); frosted elastic tubing; male luer lock adaptor; with or without "hypodermic needle, scalp vein set, anti-reflux valve, blue vented cap, micro flow regulator, micro filter" etc; light shielding function etc.; DEHP-free

Transfusion Set

Components of Spike, Drip Chamber and Regulator

- A- 89mm, for T-shape Spike (w/o air inlet)
- B-89mm (w/o air inlet)
- C-89mm (with air inlet)
- D-89mm(with air inlet, with ring)
- E-150mm, double chambers

- R1-50mm
- J1-55mm with tube clasp
- R2-55mm safety

Configuration of Blood Transfusion Set

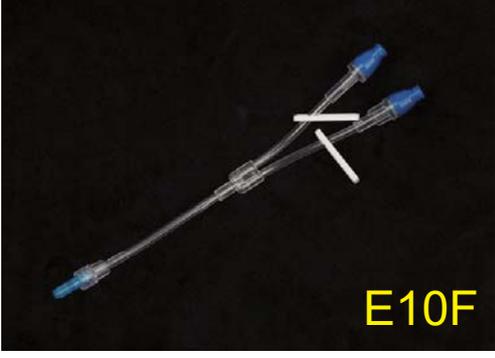

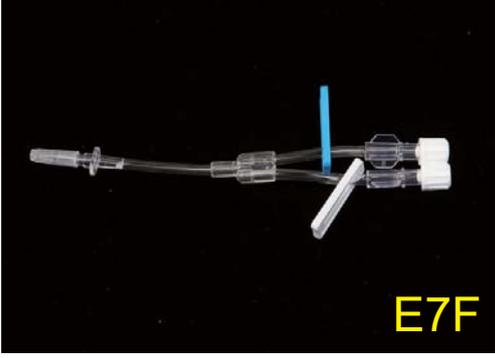

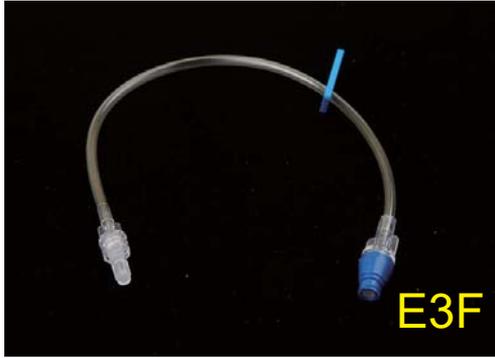

Remarks:

1) **Standard Configuration (Economic Configuration):** spike, blood drip chamber with filtration net (89mm, 20drops/ml), tubing (length: 150cm, O.D/I.D: 4mm/3mm), regulator (50mm), luer-tip adaptor, with DEHP ingredient

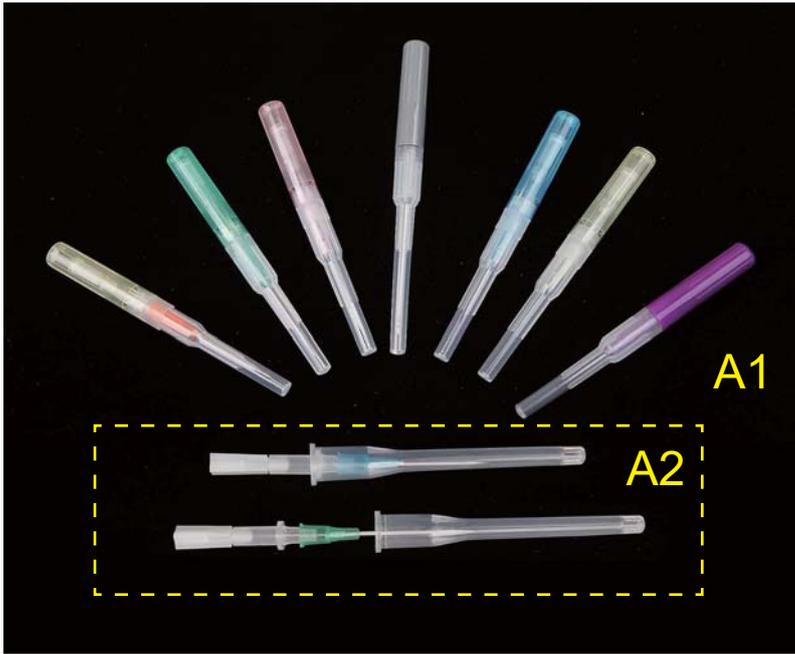

2) **Optional Components to Add:** T-shape spike; air inlet; drip chamber (89mm with ring/150mm); regulator (50mm/55mm with tube clasp/55mm with safety hole); natural latex /isoprene rubber (latexfree) injection bulb (line-shape/pear-shape); Y-shape injection site(latexfree); needlefree injection site(latexfree); extension tubing (O.D/I.D: 4mm/3mm); frosted elastic tubing; male luer lock adaptor; with or without "hypodermic needle, blue vented cap" etc; light shielding function etc.; DEHP-free
